

Meritor Part

Meritor Parts - Meritor is a leading global supplier that is proudly founded on a one hundred year tradition of service and quality. They concentrate on a broad range of integrated systems, modules and components to original machinery makers and the aftermarket for the industrial and transportation trades.

Meritor values the wishes of their customers to guarantee their success while priding itself in the company's unique energy and believes this output of energy to be their aggressive advantage in their global operations. Meritor begins with a culture which values diversity of people and their broad thought processes. Operating in 19 countries and employing over eleven thousand two hundred individuals, Meritor encourages innovation and collaboration amongst a team of experienced professionals.

By just employing future focused staff, Meritor strongly thinks these top-caliber workers will be able to quickly adapt to changing environments and demonstrate the performance and commitment required so as to attain results in the competitive materials handling trade. The business empowers their teams to make sound business decisions so as to improve the overall success of the business. In return, Meritor offers all their staff different opportunities for professional and personal development.

The Advanced Engineering team is on the forefront of components and system engineering. This comprises drivelines, axles, suspension and braking systems intended for medium and heavy duty trucks, military vehicles, trailers, off-highway vehicles and buses. The Meritor Advanced Engineering team is growing. They started a new technical center in Bangalore, India in September 2009 so as to lead their advanced product development initiatives that represent the whole Asia Pacific region. This particular team is even responsible for supporting the needs of all their global engineering employees.

Meritor's customer focused and dynamic Quality team is committed to ensuring optimum processing at their aftermarket distribution facilities and production plants which are situated all over the world in 19 countries and in 5 different continents.

The supplier development network is specially located so as to support new business growth. Regional teams are supported by international initiatives, quality systems and centralized specialties in Materials Engineering and Six Sigma. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making in each and every part of the company. The DFSS or likewise known as Design for Six Sigma ensures product reliability in each and every region. The team is even comprised of transactional Green Belts who make use of Six Sigma tools to business methods and implement lean techniques.
