

Clark Forklift Part

Clark Forklift Part - At present, there are over 350,000 Clark lift trucks performing globally, and in excess of 250,000 operating in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive corporations in the industry. Heavy duty trucks ranging from 1,500lb to 18,000lb capacities, dual fuel, petrol, LPG, hand powered lift trucks, narrow-aisle stackers and electric riders are a few of their specialties.

Clark Totalift has 20 unique models of forklifts, with components covering more than 120,000 specialized components for all of its automated equipment. Your regional Clark Seller is your complete source for availability of all your components requirements offered by Clark Totalift.

Clark's phenomenal Parts Distribution Stores are conveniently situated in Louisville, Kentucky, which serves both their consumers and sellers in North America, and Changwon, South Korea, which handles their Asian dealers and consumers. For over 90 years, Clark has surpassed industry standards, being one of the most actively advancing companies. Driven to provide the highest level of value and service to our users, Clark remains on the leading edge when it comes to improving output and benefiting performance.

Clark Totalift has a really outstanding worldwide support network. With over 550 locations worldwide, dealer representation in over 80 countries and 230 locations in North America, their high level of dedication to their consumers predominates the materials handling market.

Clark proudly remains an progressive leader of the material handling industry, pioneering safety features such as the worker restraint system. This exceptional commitment to safety is currently a standard feature on every lift truck.

Clark's relentless mission to have the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck producer across the world to be certified with the internationally approved quality standard ISO 9001 for every one of their manufacturing plants. Also, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be ready for any environmental limitations, thus placing them in a prevailing industry position.

Clark has selected the extremely economical and advantageous system of "Lean Manufacturing" for its assembly plants and application of resources. This system was developed to acknowledge the most successful approaches of manufacturing facility stewardship and ensuring maximum efficiency. Clark has concluded this transition of its Korean plant. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and manufacturing efficiencies.

Clark's product engineers and suppliers communicate together to enhance the proficiency and brilliance of their products while minimizing costs. The contemporary value engineering agenda combines progressive product development and offers improved client support and service within the industry.
