

Forklift Spreader Bar

Spreader Bars for Forklift - ELME has been proudly operating ever since 1974, becoming the biggest independent spreader manufacturer all-around the globe. They are a dedicated maker of spreaders utilized for lots of various applications like for example the handling of containers, swap bodies and trailers.

Engineering is done in-house by means of using all of the newest CAD systems and FEM tools. The ELME company presently has over 125 workers. Their spreaders are supplied to reach straddle carriers, lift trucks, gantry, quayside, ship-to-shore cranes and stackers all-over the world.

The ELME product series offers spreaders utilized for several container and trailer handling operations. Some of their inventory comprise: Harbour Cranes, Lift Trucks, Straddle Carriers, Ship to Shore Spreaders, Spreaders for Rail mounted and Rubber Tired Gantry Cranes, Reach Stackers as well as a huge range of additional parts.

Production and manufacturing of ELME products are established in highly automated purpose designed factory. In the year 2008, they created 1150 spreaders by using quality parts so as to ensure dependability and high standards. Major characteristics of ELME consist of design simplicity, market reaction and ground-breaking modular spreader concept.
